

Upstream Intelligence

Unlocking real-time intelligence and analysis on global energy data, events, and trends.

S&P Global
Commodity Insights

In the ever-evolving landscape of the oil and gas industry, staying ahead of the competition is paramount. Upstream Intelligence provides unparalleled, real-time insights and analysis that empower energy professionals to make informed decisions, seize opportunities, and mitigate risks. Our service is not just about data; it's about transforming that data into actionable research and intelligence.

With Upstream Intelligence, you gain access to a comprehensive suite of tools that deliver critical market intelligence tailored to your specific needs. Whether you are tracking competitor activities, monitoring licensing rounds, or evaluating exploration strategies, Upstream Intelligence will enhance your operational efficiency and support your strategic objectives.

What is Upstream Intelligence

Formerly known as the Global Exploration & Production Service (GEPS), International Energy Letter (IEL), and the Daily Exploration Alert (DEA), Upstream Intelligence is the industry's leading real-time commentary and analysis service. We provide essential insights into market dynamics, competitor activities, and regulatory developments across the upstream oil and gas sector.

Coverage:

- **Industry Insights & Analysis:** Stay informed about upstream activities, projects, assets, operations, licensing, investments and companies, their activities in energy transition including carbon storage, and the implications on your operations.
- **Competitor Activity Monitoring:** Gain insights into competitors' strategies and operations to identify potential threats, partnerships and opportunities.
- **Licensing Rounds:** Monitor licensing rounds and receive expert analysis to help you gain access to new opportunities.
- **Exploration Strategies:** Evaluate portfolio and exploration strategies to discover and access new prospects.
- **Asset Tracking:** Track assets and ownership throughout their lifecycle for informed decision-making.

200+
Countries/geographies covered

1300+
avg. activities and research reported per month

500+
detailed analysis of 100+ countries/ geographies per annum

600+
regularly updated intelligence maps and infographics

15+
detailed analysis of global/regional trends per annum

850+
monitored high-impact and regionally important exploration wells

Meeting Customer Needs

At Upstream Intelligence, we understand that energy professionals face unique challenges. That's why our service is designed to meet your specific needs:

	Your needs	How We deliver
Monitor	**Monitor time-critical and high-impact industry events as they unfold.**	Receive **real-time ALERT articles** to stay instantly informed of critical industry developments as they happen. Receive the **Upstream Daily Activity Digest**, expertly curated regional summaries of key exploration and developments. Receive the **Upstream Intelligence Weekly Digest**, an expertly curated global summary and highlights of key research and analysis.
	Access comprehensive details on every activity and event, complete with historical context and expert assessment of its industry impact.	Access expertly curated **research articles** delivering deep dives into market dynamics and emerging opportunities.
	Uncover activity trends across the entire energy value-chain, from gaining access to exploration to production and beyond.	Explore **trend articles** that spotlight evolving patterns and transformative forces shaping the upstream sector.
	Visualize key developments and future outlooks with dynamic spatial mapping and intuitive infographics.	Discover evolving industry trends and gain instant geographic and data-driven insights through **interactive country/ territory maps, data visualizations, and infographics**.
Analyze	**Gain a deep understanding of each country and territory's history, status, and prospects in the upstream sector.**	Consult **country/territory-level Upstream Perspective reports** for comprehensive analysis and strategic outlooks.
	Explore country-level exploration and production overviews to identify opportunities and challenges briefly.	Monitor operations and developments with the intuitive **Activity Monitor dashboard**.
	Stay informed with high-level insights into oil & gas price movements and their influence on upstream strategies.	Track market drivers using the **Oil Price Analysis dashboard**, connecting price movements to upstream trends.
	Rely on independent, in-depth research and analysis to guide strategic decisions with confidence.	Reference authoritative **research reports**, including the annual High-Impact Well report, for essential benchmarking and evaluation.
	Track recent, ongoing, and upcoming licensing rounds, complete with critical details to inform your access strategies.	Stay ahead of licensing opportunities with the **Licensing Round Monitor dashboard**—your gateway to current and upcoming rounds.
	Monitor global trends and highlights to stay ahead of market shifts and emerging opportunities.	Dive into global and regional intelligence with the **Global Trends report (monthly), Regional Trends report (quarterly), Bid Round and Open Acreage report (quarterly), and Global Discovery report (annually)**.
	Discover available farm-in opportunities to expand your portfolio and accelerate growth.	Discover partnership and growth options via the **Farm-in Monitor dashboard**, highlighting available farm-in opportunities worldwide.

How We Deliver:

Upstream Intelligence is accessible through multiple channels, ensuring you have the information you need, when you need it:

- **S&P Connect Web and Mobile Platform:** Access real-time data and insights on-the-go, tailored to your preferences and integrated with a broad array of industry-leading analysis, market research, information, forecasts, and dynamic analytical tools.
- **S&P EDIN Web Platform:** Utilize our specialist platform for data-driven workflows, providing a seamless user experience.
- **REST APIs:** Integrate our service with your existing platforms for customized solutions that fit your operational needs.
- **AI-Ready Data:** Leverage AI-driven workflows to process and analyse large datasets efficiently, enhancing your operational capabilities.
- **Custom Email Alerts:** Set up alerts based on your geographical interests, subjects, and frequency preferences to stay updated on the latest developments.

Your Competitive Edge in Energy Intelligence

With Upstream Intelligence, you are not just choosing a service; you are choosing a partner dedicated to your success in the oil and gas exploration sector. Let us help you navigate the complexities of the upstream market with confidence, clarity, and precision.

About S&P Global Commodity Insights

At S&P Global Commodity Insights, our complete view of global energy and commodities markets enables our customers to make decisions with conviction and create long-term, sustainable value.

We're a trusted connector that brings together thought leaders, market participants, governments, and regulators to co-create solutions that lead to progress. Vital to navigating Energy Transition, S&P Global Commodity Insights' coverage includes oil and gas, power, chemicals, metals, agriculture and shipping.

S&P Global Commodity Insights is a division of S&P Global (NYSE: SPGI). S&P Global is the world's foremost provider of credit ratings, benchmarks, analytics and workflow solutions in the global capital, commodity and automotive markets. With every one of our offerings, we help many of the world's leading organizations navigate the economic landscape so they can plan for tomorrow, today.
