

Petrodata

Comprehensive market
intelligence and analysis
on the oil and gas industry

We know about every rig, vessel and platform at sea or yard

Their work, maintenance and availability schedules, day rates, contract details, planned inter-regional moves, technical specifications, suitable tenders, future demand and more.

Petrodata by S&P Global Commodity Insights helps its clients to actively monitor offshore assets including drilling rigs, vessels and infrastructure in order to reduce costs, define procurement or bidding strategies, expand sales, uncover supply and demand trends, and spot emerging opportunities and risks.

Our large team of regionally based market experts maintain a daily dialogue with operators, contractors, yards and other industry players to deliver the most accurate and up-to-the-minute information continuously.

Petrodata by S&P Global Commodity Insights covers six distinct segments:

- Offshore drilling rigs
- Offshore supply vessels
- Construction vessels
- Seismic vessels
- Floating production units
- Offshore field development projects

Petrodata by S&P Global Commodity Insights solutions

Online databases

The most comprehensive option for those who need to actively monitor important offshore assets, including drilling rigs, vessels, field development projects and infrastructure. Our set of online databases contains a robust collection of commercial and technical data that is updated throughout each business day. Built-in analytical tools and the ability to customize and download all searches allow the user to easily assess offshore activity globally or by region, evaluate market trends, analyse the existing portfolio and performance of clients and competitors, and much more. We have six products, each covering a distinct offshore segment: Petrodata Rigs, MarineBase, ConstructionVesselBase, SeismicBase, FieldsBase and FPSbase.

Reports

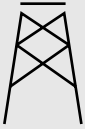

Our monthly, quarterly and bi-annual reports offer an overview and commentary on their respective offshore sectors, providing a summary of the most important developments and a round-up of commercial data and market intelligence. The following seven reports are available: World Rig Forecast, North Sea Rig Report, Offshore Field Development Monthly, FPSbase Quarterly, Offshore Marine Monthly, Seismic Quarterly and Global Supply Vessel Forecast.

Newsletters

Get exclusive news on commercial aspects of the offshore industry, gathered directly by our large team of reporters through their extensive network of industry contacts. Our newsletters cover five distinct offshore markets – drilling, marine, seismic, field development and subsea – across three key regions: Middle East, Asia-Pacific and Americas, Europe and West Africa. The newsletters are delivered several times a week directly into your email box, with an online news archive also available for searches.

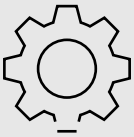

How we can help

Through a combination of data, news, analytics and expertise, Petrodata by S&P Global Commodity Insights enables smarter decision making in everything from day-to-day operations to long-term planning, strategy and investment.

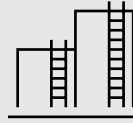

Operators

- Get an immediate snapshot of current utilization, day rates, asset availability and upcoming deliveries to optimize procurement strategy and make the right sourcing decisions on timing and equipment
- Plan and budget offshore campaigns

Service Companies

- Identify new opportunities by knowing your market players and their work schedules, rig and vessel locations, regional moves and new contract awards
- Get unknown insights into the activities of your existing and potential clients

Asset Owners

- Identify upcoming projects and future growth markets
- Follow competitor activity to optimize bidding and investment strategies and gain leverage in contract negotiations
- Get information on E&P plans and requirements, as well as current supply base to forecast demand for your assets, optimize fleet allocation and makeup

Financials

- Don't wait for press releases, be informed of new developments as they happen
- Track, analyse and forecast company and industry performances with the most accurate and complete data on assets and contracts
- Capitalize on market opportunities by tracking supply-demand shifts

About S&P Global Commodity Insights

At S&P Global Commodity Insights, our complete view of global energy and commodity markets enables our customers to make decisions with conviction and create long-term, sustainable value.

We're a trusted connector that brings together thought leaders, market participants, governments and regulators, and we create solutions that lead to progress.

Vital to navigating commodity markets, our coverage includes oil and gas, power, chemicals, metals, agriculture, shipping and energy transition. Platts® products and services, including the most significant benchmark price assessments in the physical commodity markets, are offered through S&P Global Commodity Insights.
